

## Camrose I, Camrose, Alberta

PLANT CAPABILITIES SHEET

### FEATURES AND BENEFITS

Bredero Shaw's Camrose, Alberta facility is strategically located in Northern Alberta to serve the very active Alberta oil and gas market, in order to effectively provide coating requirements to local customers.

The facility is located next to the Evraz Inc. NA, which reduces logistical and management interface costs. With minimal pipe handling, damage to bare or coated pipe is reduced and repair costs are minimized.

The Camrose facility utilizes Bredero Shaw's latest manufacturing technology and offers High Performance Composite Coating (HPCC) which is an advanced composite system that represents the latest development in anti-corrosion systems. Also available from this facility are Fusion Bonded Epoxy and Dual Layer FBE products.

Access to Shaw's own rail spur in Camrose can provide logistical advantages for receipt of bare pipe or load-out of coated pipe.

Anti-Corrosion Coatings

### MANUFACTURED PRODUCTS

COATING TYPE	DIAMETER mm (")		LENGTH m (')	
	MIN.	MAX.	MIN.	MAX.
<b>HPCC:</b> High Performance Composite Coating	406 (16)	1065 (42)	18.3 (60)	25 (82)
<b>FBE:</b> Fusion Bonded Epoxy Powder Coating	89 (3.5)	1220 (48)	5.5 (18)	25 (82)
<b>Dual Layer FBE:</b> Dual Layer Fusion Bonded Epoxy Powder Coating	89 (3.5)	1220 (48)	5.5 (18)	19.8 (65)

### LOCATION

## Camrose I, Camrose, Alberta

### ACCESS

#### METHOD

#### DETAILS

#### Truck

- 5410 39<sup>th</sup> St.  
Camrose, Alberta T4V 4P4

#### Rail

- Spur DEMAY  
SUB CBI I – CN

### SPECIAL SERVICES

- Abrasion Coatings

- Canusa-CPS Heat Shrinkable Sleeves

- Tapes

- Primers

- Field Joint material

### PARTIAL LIST OF COMPLETED PROJECTS

PROJECT	PRODUCTS	LENGTH (km)	DIAMETER (")	YEAR
Haynesville	FBE/DPS	144	36 & 42	2009
South Peace	FBE	95	20	2009
Keystone Pipeline	FBE	164	30	2008
EnCana New Wave	FBE/SureFlo® FEC	225	36	2005
Peerless/Godin Lake Loop	HPCC	3.6	NPS 36	2004
Williams – Kern River	Dual Layer FBE/SureFlo® FEC	183	NPS 36	2002
Williams Kern River	AR/SureFlo® FEC	316	36 & 42	2002
Alliance Pipeline	FBE/SureFlo® FEC	2000	4-42	1998–2000
Maritimes & NE	HPCC/FBE/SureFlo® FEC/AR	261	NPS 30	1998-2000
Maritimes & NE Pipeline Project	FBE/HPCC/DPS	568	16-30	1998-2000
Enbridge – Athabasca	HPCC	540	NPS 3.5-42	1998
Wild Rose Pipeline	HPCC	545	36	1998

### HEALTH & SAFETY

Bredero Shaw is committed to providing a safe and healthy workplace and ensuring that our business activities are conducted in a manner that protects the environment. It is our objective to achieve an Incident and Injury Free workplace, where everyone recognizes that by risking incident or injury, they are putting in jeopardy what they value and those they care for.

### BREDERO SHAW: THE GLOBAL LEADER IN PIPE COATING SOLUTIONS

Bredero Shaw is the world leader in pipe coating solutions, with more than 75 years of experience, over 27 global pipe coating facilities and the largest team of technical and service specialists in the business. Bredero Shaw offers technologically advanced solutions for anti-corrosion coatings, protective and weight coatings, thermal flow assurance coatings, internal coatings, custom coatings and field joints for both onshore and offshore applications. This broad range of products and services provides Bredero Shaw with the unique capability to service the full spectrum of pipeline protection and flow assurance requirements. Consult your Bredero Shaw representative for your unique project requirements.

The information contained herein is indicative of the types of coatings provided by Bredero Shaw, and is not intended to be a guarantee that a particular coating will be suitable for a given application. Since many unique environmental, operating, and design conditions must be considered, the user shall determine the suitability of the coating for the intended use and assume all the risks and liabilities in connection therewith. Bredero Shaw's liability is stated in our standard conditions of sale.
