PLANT CAPABILITIES SHEET

FEATURES AND BENEFITS

Bredero Shaw's Kuantan, Malaysia facility is strategically located near the oil and gas fields in Southeast Asia and the shipping routes in the South China Sea, in order to effectively service local and international clients in the Malaysian and international markets.

With over 700,000 m² of plant and pipe storage area available, the Kuantan facility is the largest pipe coating facility in the world. The facility is capable of providing various advanced pipe coating technologies, enabling concurrent execution of multiple projects and product lines.

The Kuantan facility is located adjacent to Kuantan Port, which provides a safe and economical logistic solution for pipe handling and transportation. In addition, priority and dedicated berthings can be made available as well. This will reduce risks of demurrage or laybarge downtime.

Bredero Shaw is the industry leader in providing a safe and healthy workplace. The Kuantan facility has incorporated the latest technology in HSE practices and improved upon the quality control systems that are presently in operation.
