

BREDERO SHAW

A SHAWCOR COMPANY

PT BREDERO SHAW INDONESIA CELEBRATED THE OPENING CEREMONY OF ITS RELOCATED AND EXPANDED COATING FACILITY IN THE KABIL INDUSTRIAL ESTATE ON BATAM ISLAND, INDONESIA.

PT Bredero Shaw Indonesia, a subsidiary of ShawCor Ltd. of Canada (TSX: SCL.A, SCL.B), celebrated the official opening of its new World Class coating facility in the Kabil Industrial Estate on Batam Island, Indonesia on June 27, 2006. The ceremony was officiated by the Indonesian President Susilo Bambang Yudhoyono.

PT Bredero Shaw Indonesia has been supplying pipe coating products and services for over 20 years and is a leading provider in the Indonesian and International onshore and offshore oil and gas industries. The new Kabil facility is capable of providing a range of pipe coating solutions including various anti-corrosion coatings, protective and concrete weight coatings, flow assurance coatings and internal coatings. The location of the new Kabil facility provides immediate access to onshore and offshore pipeline work in the region, therefore affording logistical advantages for its customers. PT Bredero Shaw's World Class Kabil facility incorporates the latest technology in Health, Safety and Environment practices and Quality Control Systems.

Bredero Shaw is the global leader in the development and manufacture of pipe coating solutions for the oil and gas industry. With over 75 years of global experience, 27 pipe coating facilities on 6 continents and more than 4,000 experienced and dedicated pipe coating professionals, Bredero Shaw is the preferred choice of energy industry clients around the world. Using proven and innovative coating technologies, Bredero Shaw has coated over 250,000 kilometers of pipelines around the world. With over 50 scientists and engineers and three RD&E facilities, new pipe coating technologies continue to be developed including new high performance insulation and flow assurance products. Currently, Bredero Shaw has the industry's highest performance and largest range of insulation and flow assurance products for deepwater and LNG applications.

the GLOBAL LEADER in pipe coating solutions.

PLANT DETAILS

LOCATION:
Batam Island, Indonesia
